

2023 Research Methodology and Presentation Skills --- Test 2

Question 1 (Quantitative Methods and Experimental Research) 20%

In your own words, use one sentence to briefly explain what is:

- (i) true experimental design,
- (ii) pre-experimental study,
- (iii) quasi-experimental design, and
- (iv) ex post facto design.

Question 2 (Research Execution and Management) 20%

Explain what is

- (i) paraphrasing, and
- (ii) text-recycling?

What should we do, in order to avoid other people accusing us of (i) and (ii)?

Question 3 (Research Report and Presentation -1) 20%

Use 5 points to explain why research writing is NOT creative writing.

Question 4 (Research Report and Presentation -2) 20%

In a conference, what are the main different differences between a power point presentation and a poster presentation?

Question 5 (Scholarly Paper and Publication -1 & 2) 20%

For a journal, what is the main difference between “JCR Impact Factor” and “Cite-Score”?
